Detailed Action

1.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 16 and 18 are rejected under 35 U.S.C. 102(e) as being anticipated by
Loce.

With respect to claim 16, Loce teaches a digital half-toning system (see figures 3 and 5) and col. 7, lines 7-10 comprising: a processor 200; marking device (see col. 1, lines 54-61 and col. 2, lines 5-10 and 20-25, interfaced to the processor; and software

means (circuit program logic device according to col. 13, lines 30-40 operative on the processor for generating an output pixel value , the output pixel value being generated by a stochastic screen routine (see col. 9, lines 45-49), an error diffusion routine (col. 9, lines 45-49) .

With respect to claim 18, Loce teaches temporary output pixel value is produced by stochastic screening routine, according to col. 9, lines 45-50; an adjusted input pixel value is determined based on the temporary output pixel value (data is weighted according to col. 10, lines 1-7, the adjusted input pixel value is error diffused to produce the output pixel value. See col. 10, lines 7-10 and 21-38.

2.

Claims Objected

Claims 17, 19 and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

3.

Claims Allowed

Claims 1-15 are allowed.

Claims 1-15 are allowed for the reason that limitations a) – c) in claimed combination are not taught or suggested in the prior art.
